Skyline Barbershop Club

(No, we do not cut hair)

(It's Barbershop Quartets– we sing!)

Barbershop is a style of music characterized by close harmony in the acapella style (meaning that there's no instrumental accompaniment).

Typically, a Barbershop group consists of four singers (although choruses, in which multiple singers are on each part, are also common– we'll mostly be singing as a chorus). But, by the end of the year, the goal is to split off into smaller quartets, and then learn pieces to perform for each other!

No audition or previous choir experience necessary!
